

Three ¹⁹⁹⁰ Terex Excavators

O&K 120C Hydraulic Long-Reach Clamshell

This lot of equipment represents an exceptional value for the buyer. These excavators have seen soft duty unloading garbage barges. They have not travelled far, their undercarriages are exceptionally clean, and none has logged more than 20,000 frame hours (some have less). Reliable documentation readily available.

Specifications

- Cab height of eye is 26 ft above ground
- Monoboomb length, 10.5 m, stick, 9.0 m
- 10 yd³ hydraulic swivel clamshell bucket
- Fuel tank holds 924 gal
